專 長 領 域	無特殊專長； 堅持信仰，熱愛生命，做自己，活出自在！			
休 閒 活 動	Reading & Writing			
工作、研究、教學、興趣或其他等相關之補充 (中英文皆可)				
MS. JENNY WEI is currently the Chairman of CTCI Machinery Corporation (CTCIM 俊				

鼎機械廠股份有限公司) since April 2007. CTCIM is a subsidiary of renowned CTCI Group(中鼎工程集團) in Taiwan. Ms. Wei started her professional career as a Mechanical Engineer after graduation from National Taiwan University, and the overwhelming majority of her employment and growing are in CTCI Group. Over the years, she has vast experience in piping engineering in EPC project, establishing engineering standards, IT programmer/leader, Planning chief, Office manager of Kaohsiung MRT GC-I (ITC), CTCI PR dept. manager, HR/Adm. dept. manager, etc.

After years of experience in interacting with people for goal achieving or trouble shooting, Ms. Wei believes that humanity and benevolence are basic essences in management and leadership. She obtained her M.S. degree in Baruch College of CUNY (The City University of New York) - Executive Master of Science in Management of Human Resource and Global Leadership in 2007. Ms. Wei has successfully helped CTCI headquarters accomplishing CTCIM spin-off from CTCI in 2007 and an advanced merging in 2011.

Ms. Wei has just delivered a speech on behalf of CIE (中國工程師學會) in WiSET 2012, a international conference for women in science, engineering and technology held 14-16 June at Kuala Lumpur Malaysia. Her topic was “Milestones to Success in Science, Engineering and Technology: Empowerment, Innovation, Networking and Passion”. She shared her own experience of occupational career. She also shared her beliefs and values to encourage attendant females to move forward. Furthermore, she successfully promoted the society achievement of Taiwan in enhancing females’ participation and promotion to top management without gender ceilings.

在科技領域的經歷和心得的分享 & 對其他女科技人或未來女科技人的建言
